CDI ANNOUNCES NEW ASSOCIATION WITH LAKE STREET MEDIA AND WELL-KNOWN AUTHOR  
CHRISTOPHER KNIGHT OF MISERY BAY FILMS, LLC

LANSING — Established Michigan author Christopher Knight of Misery Bay Films, LLC, and his production partners of Lake Street Media of Petoskey are joining forces with Collective Development Inc., of Lansing to resume camera roll on the feature film “Bestseller.”

The film, which is based upon Knight’s adult novel “Bestseller,” written in 2001 and released throughout Michigan in 2002, began production on July 15 in Petoskey, Mich., with a company move to Detour, Mich. on July 18.

Throughout production, the cast and crew were met with several unforeseen challenges. On July 23, an executive decision was made to suspend production and make a change in management due to schedule and budgetary issues.

It was determined that forging ahead would have compromised the integrity of the project.

Since the suspension, Knight and his production partners from Lake Street Media began their due diligence to forge ahead with the project and came across Collective Development Inc., [www.cdiproductions.com](http://www.cdiproductions.com), a seasoned Michigan production company, which has seen 30 feature films to completion and distribution.

Discussion between the three parties began, and a partnership was formed. Pre-Production on the project will resume on Oct. 1 without compromise in continuity of current footage.

“Bestseller” is about Chicago literary agent, Anne Harper, who vacations to a remote cabin in the Upper Peninsula of Michigan. While there, unbeknownst to her, a disgruntled writer is waiting in the shadows to seek his revenge.
